Our records indicate that you have filed for Bankruptcy protection. As a result of your Bankruptcy filing, escrow account deficiencies prior to your filing date have been removed from calculation of your analysis, and they are now reflected as amounts due within your pre-petition arrearage. This Escrow Analysis Statement was prepared under the assumption that all escrow payments have been made in the amount required each month. The surplus funds indicated above are not an accurate reflection of your escrow account because no surplus funds will exist until all amounts are received towards your pre-petition arrearage.

IF THERE ARE NO PRIOR PAYMENTS TO OR FROM ESCROW SHOWN. THERE WAS NO PRIOR PROJECTION TO WHICH THE ACTUAL ACTIVITY COULD BE COMPARED.

Determining your Shortage or Surplus

Shortage:

- Any shortage in your escrow account is usually caused by one the following items:
 An increase, if any, in what was paid for insurance and/or taxes from your escrow account.
 A projected increase in taxes for the upcoming year.
 The number of months elapsed from the time of these disbursements to the new payment effective date.

Shortages are divided evenly of the next twelve months. To reduce the increase in your monthly payment, the shortage can be paid either partially or in full.

Surplus:

A surplus in your escrow account is usually caused by one the following items:
 The insurance/taxes paid during the past year were lower than projected.
 A refund was received from the taxing authority or insurance carrier.

- Additional funds were applied to your escrow account.

If your surplus is \$50.00 or greater and your loan was contractually current at the time when the analysis was run or calculated, a check will be sent to you. If your surplus is less than \$50.00, the funds will be retained in your escrow account.
